*'At it's February meeting Fovant Parish Council discussed the four questions highlighted in the Empowering Rural Communities document which is an element of Wiltshire Council's Local Plan 2016-2036 which is currently out for consultation until March 9<sup>th</sup>. FPC had the following views.*

*FPC agreed with the principle of including 40% affordable housing in each development of 5 houses or more in rural communities. We also agreed with the principle of using planning restrictions on smaller properties to protect the availability of smaller properties within a rural community.*

*There were some reservations in relation to the changes in Core Policy 44, notably the issue of cross subsidisation of affordable housing development by having a proportion of said*

*development made up of open market housing. If such a policy were to make an otherwise unviable affordable housing development possible then it can be seen as a positive change. The reservations noted where in relation to who the true beneficiaries might be of such a policy.*

*FPC did not have any additional comment to make on the housing allocations estimated for small and large villages described within the Empowering Rural Communities document.'*
